WORK EXPERIENCE

General Assembly

Software Engineering Immersive, 2021
Part time student in the Software Engineering Immersive program that included over 400 hours of professional training over six months. Utilised a hands-on approach to hone fluency in multiple backend and frontend frameworks, implementation of third-party API's and effective collaboration within a team using version control. Developed a portfolio of individual and group projects, including:

Tic Tac Toe - Street Fighter Edition
- A retro twist on the classic game of tic-tac-toe
- HTML, CSS and JavaScript

Marvel Trading Cards
- Platform allowing users to buy, trade and sell Marvel character themed trading cards
- HTML, CSS, Ruby, Sinatra, HTTParty, Postgres, Marvel API

Tempo Run
- Create Spotify playlists with song tempos matching your running cadence.
- HTML, CSS, JavaScript, Express.js, Fetch

FORMER WORK EXPERIENCE

Project Manager
Johnstaff Projects: May 2018 to present
Coffey Projects: September 2015 - May 2018

- Successfully delivered multiple capital works developments in the public education sector.
- Received several Consultant Performance Reports from clients noting superior performance in time management and cooperative relations.
- Managed project deliverables using project and task management software, e.g. Trello and MS Project.
- Managed design, engineering and construction teams during all phases of design and construction.
- Stakeholder consultation including coordination and presentations at community consultation events, project coordination and client control group meetings, end-user workshops.
